

WANSTEAD FELLAS

P514 · AUDIT

PROFILE COMPLETENESS · 4 JUL 2026

Scope. Every player who has appeared in a match in the last 90 days (59 in total). Six player-owned profile attributes checked. Sorted by gaps → most missing at the top so the chase list surfaces first. Live pull as of today.

Age counts if a player has shared either their DOB or a 10-year age band — the band is the privacy-preserving fallback for anyone not comfortable sharing DOB. In the table, a green ✓ means exact DOB, a cyan **BAND** means age band only.

► Squad-wide coverage

POSITION (PRIMARY) 56/59 95%	PHOTO 20/59 34%	AGE (DOB OR BAND) 52/59 88% · DOB 34%	FAV CLUB 17/59 29%	POS (SECONDARY) 3/59 5%	FOOT 3/59 5%
--	------------------------------	---	---------------------------------	---	---------------------------

► Squad age spread

Green code = exact DOB · cyan code = age band only · ? = neither shared.

U20 14 UNDER 20	20s 2 20S	30s 1 30S	40s 24 40S	50+ 11 50+	? 7 UNKNOWN
-------------------------------------	-------------------------------	-------------------------------	--------------------------------	--------------------------------	---------------------------------

Read — 40s = green tint (exact DOB) · 40s = cyan tint (band only) · ✓ set · ✗ missing · Gaps = count of ✗

Tier — SUB = subscribed · WTP★ = priority casual · WTP = casual

► How we're closing the gap

Just shipped · ProfileCompletionCard

LIVE ON NEXT GAME · 4 JUL 2026

Everyone who signs into Next Game with at least one profile gap sees a single green "Complete your card" banner at the top of the page. It shows a progress bar (N of 6 done) and one tappable row per missing field. Position, backup position, foot and age band can be picked inline; photo and favourite club deep-link to the Profile page. The banner auto-hides at 6 of 6 and is dismissable per session.

This replaces the two standalone position + foot nudges that were doing the same job less coherently. One banner instead of three.

Complete your card

3 / 6 done · 3 to go

What each row does

- **Position** · inline 4-button picker (GK / DEF / MID / ATT)
- **Backup position** · same picker, second tap = secondary
- **Foot** · inline 3-button picker (LEFT / RIGHT / BOTH)

▪	Age Exact DOB on Profile — or a decade below	SET
	Backup position Where can you cover if needed?	SET
	Profile photo Puts a face on your card.	PROFILE →

- **Age** · inline 5-band picker (U20 / 20s / 30s / 40s / 50+), with a link to Profile for anyone happy to share exact DOB
- **Photo** · deep-link to Profile page (photo upload flow)
- **Favourite club** · deep-link to Profile page (long club dropdown)

All saves are instant. Progress bar updates live. Dismiss × hides it for this session only — it comes back next login until 6 of 6 done.

► Expected impact on the numbers above

- **Secondary position (5% → target 40%+)**: now the fifth of only six rows anyone with a gap sees on their tab. Same treatment as primary, but only prompts once primary is set.
- **Foot (5% → target 60%+)**: single tap for the vast majority of the squad who know their foot. Progress bar completion motivation.
- **Photo (34% → target 60%+)**: "PROFILE →" link is one tap, upload takes 20 seconds. Committee steer welcome on whether we surface a specific "photo of the week" nudge on the Cards tab.
- **Favourite club (29% → target 50%+)**: should track photo closely — one is not much harder than the other once someone's on the Profile page.
- **Age (88% → target 95%+)**: already high because of the band fallback. The 7 red X players are almost all inactive-ish WTPs with minimal profile — chasing them by name (list on p1-2) is likely more effective than another nudge.

A follow-up pull in 2 weeks will show how much the banner has moved the needle. This audit was baseline; the next one will be delta.

Committee steer → chase list obvious from the top of page 2 · foot nudge already shipping to catch it in-app.
Any group of players to focus on → admin in the WhatsApp group.
